iStateSoft Property Manager

Hits: 5,369

Description: iStateSoft Property Manager is a fully-rebrandable, one-stop solution, which takes care of all day-to-day operations with property rentals and keeps all property info in one place. Due to its intuitively understandable and user-friendly interface, iStateSoft Property Manager doesn't require that you have strong computer knowledge. The newest version (2.7) includes a number of improvements on performance and functionality, several design templates you can start with, advanced admin panel with the ability to easily add/modify fields, etc.
