board-tnk

Hits: 23,812

Description: board-tnk is a single-threaded, multi-forum script based on PHP and MySQL. Features: very secure check of the urls, multi-forums, only one level thread for each forum, cookie for tracking user info, smiley icons, "simplified" html can be used within the messages. A password protected admin page allows to create and delete forums, delete entire threads and replies from forums. Includes an option to add prefixing in the table names so that it can be run using only one database. **v2.1 update**: slight redesign of layout for better readness; typo correction for web url; suppress "http://" in url if added by poster; add Polish translation.

Resource Specifications

Version:	2.1
