# Searching Drives, Viewing and Downloading Files

Hits: 2,954

**Description:** This article illustrates some great uses of the File System Object. It shows how to choose a drive to search, and then builds a listbox of all the folders on that drive. Choose a folder and it builds a listbox of all the files in that folder. Choose a File and it will display it in the browser or prompt you to save the file to your hard drive.

## Resource Specifications
