GrabNews

Hits: 15,407

Description: GrabNews is ASP code for 'grabbing' and displaying RDF/RSS/Atom feeds on a website, and, if there is a podcast associated with an item, it will display an icon. It utilises XSLT and a database to store and display all the information required. Has user-friendly error messages as well as a very basic add news links page. Requires MSXML3 and MySQL, MS SQL Server or Access databases.
