xmlPoll

Hits: 36,938

Description: xmlPoll 2.0 allows you to setup multiple voting polls from a single, simple XML file. You can allow users to select more than one choice in a poll (via checkboxes rather than radio buttons) and they can always view results without voting. You can set a closing date, after which votes will not be accepted. Optional cookie-setting deters repeat voting.

Reviews for xmlPoll

Very good!, Jul 18th, 2001

Reviewed By: kj

Very, very good! This was exactly what I expected from a poll!

Great Pool!, May 9th, 2003

Reviewed By: wizardblood

This is a great simple poll! -, I have seen many other advanced polls, that are really hard to set-up and lot of the extra feautres, YOU DON*T NEED THEM (-:

Excellent, Feb 28th, 2006

Reviewed By: areeb1986

Although it is similar to most of the other PHP Poll Scripts, but I like it because it can be used for voting for more than one option as well that was the thing which I was looking for and found here ...
