# AboutFace

Hits: 2,994

**Description:** AboutFace enables companies to deploy a set of intranet resources to make their workplaces more efficient and more friendly. AboutFace consists of the following integrated components: Employee "Yellow Pages" - a knowledge management tool that enables employees to identify and locate colleagues with particular skills, expertise, or experience; Employee "White Pages" - a replacement for paper-based phone and address lists that also incorporates instant messaging and dynamic, online floor plans; and Employee "Face Book" - a photo directory of all of a company's employees, designed to foster a friendly working environment. AboutFace customers include the law firms of Brown, Rudnick, Freed & Gesmer; Hill & Barlow; and Willkie, Farr & Gallagher; technology companies DigitalThink and Sonexis; Johnson & Johnson; as well as a number of other organizations nationally and internationally. AboutFace is available for Windows, Unix, as well as over the Internet as an ASP service.
