Applications By Smo

Hits: 2,069

Description: Applications By Smo consists of the Login Database By Smo, the News Database By Smo, and the Profiles Database By smo. These applications have been changed from their stand alone versions to work together and share information. With one common admin page and one database, this application will give you a member management and profile system as well as a news posting system. The application will run inside 'template pages' allowing the program to fit seamlessly into any design.
