## PopOrder © Form

Hits: 1,957

**Description:** New Features: Made the program more secure, and added print receipt button. New EURO options added for date, money, post code, county, country.

For those of you who only have a few items to sell on the web, and don't want the hassle of a full blown Shopping Cart for just a couple items, but you still need something! Something not too complicated that's reasonably priced, secure, and looks professional! PopOrder © Form is the solution!

PopOrder Pro © - is a popup window, web site order form, with all your products and prices listed in it. Presented in a interactive Invoice receipt type format. This combination of CGI Perl and JavaScript makes for a more interactive shopping experience!
