LockPic

Hits: 2,607

Description: LockPic disables a web visitors ability to save your valuable online content, such as .jpg and .gif files, to their local computers. LockPic has an easy to use interface, which allows you to design the entire web page from one location. LockPic allows you to configure protection for multiple images simultaneously, as well as create thumbnails, copyright marking, watermarks, and http links in easy single click steps. LockPic is currently available as free trial beta.
