FlashChat

Hits: 14,296

Description: This is a Flash/PHP-based chat application that can be easily installed into your existing WebSite, or PHP-Nuke or PostNuke Portal system. Full version includes 20 replaceable skins and access to the growing library of full version skins. This module has been tested on: Postnuke .64 + .70; and PHP-Nuke 5.2 + 5.31. Note: At least one of the above nuke portal systems is required for the FlashChat Nuke Module to work properly. For those of you who would just like to integrate this into your own website, a standalone version is also available.

Excellent Script!, Mar 9th, 2005

Reviewed By: Rebecca217

I bought this script because of the reasonable price and seamless vb3 integration. It has a beautiful, skinnable interface, and uses very little bandwidth. I'm thrilled with the way it has performed on our site, and highly recommend it.
