Aurigma 3D Pie Chart

Hits: 2,425

Description: Aurigma 3D Pie Chart is a ActiveX component, which generates nice pie charts according to your data. You can cut a slice just clicking it or its legend. The chart is presented by VML file, that's why the browsers load it quickly. VML is a vector markup language (based on XML). Its support is installed by default with Internet Explorer 5 and higher. VML allows to make a lot of things without roundtrip.

Resource Specifications
