HiAgents MultiUser

Hits: 1,993

Description: The Multi User version of HiAgents is a complete searchable property database solution for Estate Agent / Realtor's websites. Allows an unlimited number of Agents / Admins to manage their own portfolio of properties, all of which are then searchable via the comprehensive built-in user search sysetms. System Admins have global access to all properties and agents on the system. System distinguishes between Private vendors and Business vendors. Can be used to supply online databasing to unlimited sub agents, or to distinguish between different branches / outlets of the firm. Same day electronic delivery. Carries all the features of HiAgents, including multiple photos with enlargements, link map links, tenancy schedules, automatic property specific contact forms, external html templates, separate rent / sale search areas etc.

Resource Specifications
