# JavaScript Graph-it!

Hits: 17,673

**Description:** Create graphs out of raw data using Graph It! Just input the textual data of the involved graph elements, and leave the rest to the script. The data can be either in absolute or percentage values.

## Resource Specifications

<b>Price:</b>	Free

This is the simplest JavaScript graph code I've ever seen but useful one! is is based on stretching image patterns in horizontal (or vertical) direction achieving bars. Needs just JavaScript!
