SearchMaster

Hits: 1,835

Description: A unique online tool for generating search engine ranking reports. Each report is stored in a MySQL database and access can be gained to these reports through the admin menu or for your clients, through username and password.

Due to the tool being browser based, it is extremely quick and also takes serious precautions to avoid any search engine penalties for using a tool such as this. This tool virtually cuts out all admin time with managing search promotion campaigns.

Resource Specifications

Version:	2.1
Platform(s):	linux, windows, freebsd
Price:	\$299.00
