## Sales Increaser

Hits: 2,937

**Description:** With this Script you can easily build a complete partner-program based on Pay per Sale. These script is coded in PHP and requires a MySQL database. This program is protected against cheating and you can change the design via templates. Includes a complete admin interface where you can manage the partners, banners, send mails and perform all other things. Your partners who signed up for the program can have a complete partner interface, where they can change their data, look at their statistics and earnings. Available in English and German.
