This is a very nice script. However i was unable to downloade it and i had to looke elsewhere. But other that that this script does every thing that it says it will and more. It is a great script for newbies and is really easy to edit. Out of 10 id give it a 5

I tested out a bunch of banner exchange scripts, and this is by far the best! All features you could possibly want, highly recommend.

Only point that could be changed is the template system, its very newbie friendly, but if you're looking to change the design alot, it takes a bit of work.
