Free XPeedoMeter Bandwidthmeter Test script Hits: 6,257

Description: XPeedoMeter bandwidth meter is a bandwidth test tool for your Web site. Download xpeedometer /run file/ and and ftp the folder xpeedometer to your www directory and the bandwidthmeter test is up and running without further configuration. This is a useful support tool for any ISP or site offering internet services, used all around the world. Make it simple for your customers (visitors) to compare speed in realtime over Internet (Link in xpeedometer tests found by www.google.com for your customers to compare).
