MrForm.com

Hits: 2,921

Description: MrForm can handle lots of different types of forms from booking forms, order forms and registration forms to entry forms, survey forms and application forms. You can securely collect credit card details at the same time. Once the form is up you can link it to your website - then all people have to do is fill out the form, when they've finished you can customise a link back to your site. The backend of MrForm allows your organisation to simply and easily manage the information and process payments where required. You can also download the information into access or excel via csv files and customise many aspects of your form.
