# Outreach Project Tool

Hits: 17,018

**Description:** OPT (Outreach Project Tool) is a PHP general-purpose virtual commonplace for customers and developers to collaborate in developing projects. The system provides documents archive, e-mail archive, request tracker, task management, knowledge base, news administration, newsletter support, and a lot of other features (some project-based, some system-based). Requires LAMP. [Incremental upgrade from 0.946b]
