Users Online Elite

Hits: 1,067

Description: Users Online Elite tracks visitor paths through your site. It also has an audio alert when someone new enters your site. Includes the standard "there are XX users online". Users Online Elite keeps logfiles of your visitors in an easy-to-read format viewed via a browser in a password protected admin section. Daily info is logged showing the user paths through your site, time of hit and the referring url. Also includes a search function which allows you to easily find out how many hits came from a certain url, or how many times a search term was used.
