# Universal Admin

Hits: 2,241

**Description:** Universal Admin gives you full site administration capabilities right from the browser. Once authenticated, you get a shell prompt right inside the browser. Additionally, you get a file upload option. It works as a substitute for telnet and ftp. You may find it useful under the following situations: Your ISP does not provide you a telnet; You need to manage your site frequently from behind a firewall or proxy, where running a telnet or a ftp is not possible.
