Web tools and full script applications

Hits: 1,024

Description: Professionally created scripts ranging from webmaster tools (e.g. Catalog a web site's files) to fully integrated web site systems such as full back-end support for a Job Placement Agency web site. Setup for any script is typically 5-20 minutes, depending on skill level. Few (if any) code changes required for installation.

Resource Specifications

Platform(s):	Unix, Windows
Price:	\$15 - \$500
