Auto-Gallery

Hits: 2,631

Description: Auto-Gallery automates the maintenance of large picture archives. You can add new pictures by simply uploading them. All you need to do is put pictures on your server and the program does the rest. It even determines the height and width of the pictures for you to make your pages look more professional and load faster. You control every aspect of the presentation, including style, colors, and even the order of the pictures. It also prevents others from loading the pictures off your server and using your bandwidth.

Resource Specifications

Version:	4.1
Platform(s):	Unix
Price:	\$299
Date Added:	Aug 21st, 1999
Last Updated:	Apr 23rd, 2001

Average Visitor Rating:  **0.00** (out of 5)

Number of Ratings: 0 Votes
