Quick, Easy, Simple and Affordable. Now thats what sums up ekmpowershop. I already had an ecommerce enabled store but moved to ekmpowershop when i relised that you get everything you need, there is no need to get special 'ecommerce' hosting or a secure server, with ekmpowershop you get it all.

Ecommerce without the hassle.

We have been using the ekmpowershop for our online line shopping service for the last year.

The system is simple to setup, easy to use and fairly priced. The staff are friendly, helpful and efficient.

Since we have had the online shop we have had a dramatic increase in our business. Our customers like to have the convenience of being able to order 24/7 instead of being restricted to business hours.
