NewsBar

Hits: 17,435

Description: The NewsBar script could be useful to authors that would like to include a small single-line news board on their site. Instead of using a Java applet or a Flash movie, you can use this small and fast-loading script. It also has an original and nice animation effect and supports all popular browsers - IE 4+, Netscape 4+, Opera 7+ & Konqueror 2+, Safari 1+

Resource Specifications
