EZ2Read Schedule

Hits: 3,535

Description: Displays calendar events in an "agenda" view. Admins have up to 4 columns in which to display information for each event. Great as a band schedule, meeting schedule, calendar of events, club schedule, public speaker's schedule, and anyplace else an easy to read schedule is required. Features: Easy to read and easy to administrate; Auto-delete feature automatically and conveniently deletes events that have already occurred; All headings are customizable by editing the Perl source; Ignores HTML and special characters; Customizable through an html template.
