Topdog Domain Check Script

Hits: 21,458

Description: This handy script will add a domain check and whois search facility for ugandan TLD such as .co.ug, .ac.ug, .sc.ug, .or.ug, .ne.ug and the other international TLDs such as com, net, org, biz ,info, co.uk it will print the results into any document or webpage that you specify so will fit nicely into the outlook of your site. There is provision as well for you to forward users to a signup page should they require to purchase the domain.

It now checks for the whois server less .co.za domain as well improved code cleanup and popup window result display versions now available

Support added for new extensions

com,org,net,biz,info,name ,us,co.ug,ac,ug,ne.ug,or. ug,
co.za,nu,se,ca,co.uk,org. uk,com.au,com.cn,org.cn,net.cn,
com.tw,net.tw,net.tw,ro,ws,be,no,cc,nl,pl,pt
