## Basic Statistics

Hits: 7,179

**Description:** BASIC STATISTICS script will track any access to your pages where the scripts is installed.

Then this script will write some informations like: ID of the page, Browser type, IP of visitor, Posted date, Visitor date INTO the database. Webmaster can access this statistics FROM an administration panel. We wrote this script for our internal use, we track with this script web pages and also HTML newsletters. When people open a newsletter, also this script work like on web page.

- » Features include: Statistics from your visitor per day/month
- HTML based template
- Simple cod on measured page
