PhPreview Form

Hits: 8,198

Description: PhPreview Form™ is a simple yet professional looking addition to any web site. Designed for web sites needing an easy to set up e-mail contact form with the ability to send an instant response! You can edit or add fields to the form as needed. Your web site visitors enter their details then preview and/or edit their message before sending. Easy to install, now version 2.1 SENDS IN HTML FORMAT! Your e-mail address is hidden from spam spiders too! Your web server MUST have PHP installed or it won't work.
