Web Site Robot

Hits: 2,485

Description: Web Site Robot is a simple tool to easily create and host Web Sites and online stores. It includes a shopping cart integrated with the Paypal secure online credit card payments. No HTML, FTP, web hosting company, merchant ID or secure certificate are required. It automatically creates thumbnails, audio samples, and other multimedia links. It includes dynamic IP tracking and instant display of visitor activity on your site. Visitors can change page templates. It is great for e-commerce, Web merchants, small businesses, online photo albums, education, and personal Web sites.
