# TBarCode ActiveX

Hits: 750

**Description:** With TBarCode ActiveX you can print bar codes from within your application or from within standard applications like MS-IE, Excel, Access, WinWord, VB, VC. Supports all common linear as well as enhanced two-dimensional symbologies (PDF417, MaxiCode, Data Matrix and QR-Code). Insert the control into your application and you are able to print more than 50 industrial symbologies from within one control. Numerous bar code parameters and object methods for flexible integration into the bar code application are offered. Also web based bar code applications (e.g. within MS-IE) are possible.
