**Brilliant!**, Jul 29th, 2003

Reviewed By: snkhan

After purchasing this product I was amazed at the quality and timely manner my support requests were handled. Setting up of the script was a breeze, as was customising the script to fit into my existing site design.

The staff sent me customised and altered versions of their scripts when I couldn't get some features to work on my server.

Overall great script, great support and brilliant design!
