NukeSQL 7.3 Web Installer

Hits: 5,091

Description: NukeSQL.php for PHP-Nuke 7.3 with the same security features of the last two installers.

Main features include:

- Installation of all database tables through a web browser based point & click script
- Replace all tables option, allows you to start from scratch if your database tables become corrupted and no backup is available
- Upgrade from PHP-Nuke 6.0 (default or with Tom's phpBB port), 6.5, 6.6, 6.7, 6.8, 6.9, 7.0, 7.1 or 7.2
