BosMarket

Hits: 16,127

Description: The BosMarket business directory allows you to create your own online yellow pages application for your community or special interest group. Visitors can leave reviews for the business listings to let others know what their experience was with the business. Allow your visitors to add their own listings to the business directory with either automatic or manual approval of their listing. The listing levels system allows you to custom tailor how you wish to accept listings and what those listings will display. The listing levels also allow you to configure exactly how much, if anything, to charge for the business listings. Premium options such as category sponsorship, colored backgrounds and more can be configured via the levels. Flexible display options, review replies, flexible rating options, map links and much more. Create endless numbers of directories and sub-directories so that you may organize the directory however YOU wish it to be laid out. Please see our site for more info!

Top Notch Support, Oct 10th, 2006

Reviewed By: Apple2Mac

The program is relatively basic. It is a wonderful set of functions for \$50. The PHP code is very well written and commented so it is easy to modify if you know basic PHP. Any Advanced HTML coder can easily customize this program. Also the Support is amazing, If you find a bug the developer fixes it ASAP. I've very happy with this program, I think I'll be using allot of Bos products in the future...

Excellent script, Feb 5th, 2008

Reviewed By: grjohn

Excellent script, excellent support, works great has for years, continually developed, great features, very search engine friendly, easy to integrate into your site, simply the best market script I've ever found to date.

Excellent Program!, Feb 5th, 2008

Reviewed By: intellicents

I purchased BosMarkets about 2 years ago based on how it looked back then. I've recently upgraded to his latest version and cannot believe how much better he's made it.

It's very user friendly and the support is bar none! I post a question or a problem (which are few) and there are times when I get an imediate response!

I'm using BosMarket for Northwest Arkansas newcomers and it's been a big hit with my customers. I highly reccommend this program to anyone!
