Free Web-based Autoresponder

Hits: 1,838

Description: People who send messages to your BiondoResponder address will receive an immediate response. They will receive subsequent emails, which you supply, each week after their first message. This allows you to follow up on hesitant prospects, provide follow-up services to new members, and provide a number of automated tasks which would otherwise have to be done manually.

Resource Specifications

Date Added:	Apr 16th, 2003
