## EZWebAlbum

Hits: 2,556

**Description:** This easy to use program generates dynamic html pages on the fly using simple to customize html based templates. Multiple categories and unlimited albums allow you to keep all your images well organized. Optional password protection will keep snoopers out of your private photos! Enable the public posting option and you can let your visitors post their own images into your albums! Real thumbnails, unlimited image descriptions (including html), and online admin make this truly an "EZWebAlbum"
