## Tell Friends by aspiringgeek.com

Hits: 1,326

**Description:** This page demonstrates a simple tell-a-friend function. The tell-a-friend form is placed any where on your page by simply including the tag as cf\_tellafriend. The tag will send emails referring several friends to the page that you placed this tag on. No attributes need to be supplied. This form posts back to the page and gives an alert message so there is no need to create and maintain a thank you page. Feel free to edit the alert message or the table formatting.

### Resource Specifications

<b>Date Added:</b>	May 28th, 2003
