## SlideOnDemandFade

Hits: 2,535

**Description:** This slide show / banner Java applet can fade through variable-sized images. Images are only loaded while on demand, i.e. at most two images are resident in the memory for the transition effect at the same time. Theoretically, unlimited number of images can be used.

### Resource Specifications

<b>Platform(s):</b>	linux, windows, freebsd, osx, sun

## Reviews for SlideOnDemandFade

**Very Nice**, Aug 19th, 2006

Reviewed By: VirtualChicano

Java is tricky for a lot of poeple but the service I received was both professional and patient.

Installing this script adds a bit of class to your website. This is not ghetto stuff.
