HiDocs (Free)

Hits: 2,184

Description: HiDocs is a free, cross-plaform document sharing solution for websites. Includes an online admin area where webmasters can upload new documents, add descriptions and manage the order of display. External HTML templates enable a webmaster to easily adjust the appearance of the solution to suit an existing website. Once documents are uploaded, users are able to either download the document or view the document online. File size is calculated and displayed automatically. HiDocs will run on any Windows, Linux or FreeBSD based webserver.
