This is a difficult processor to configure and use. There is no way to know that from their web site. There is no demo of the form setup system - there isn't one. You have to manually code and the learning curve is steep. There is no forum where you can learn about the program in advance so you have to buy it. But then you're stuck. There is no refund provided.

No Support!!! No Refund!!!, Mar 7th, 2008

I purchased 2 weeks ago and I can't get the forms to work. The web site has no contact numbers, no support forum and I've been waiting for 2 weeks after numerous HELP requests from their web site contact form and nobody has contacted me. STAY FAR AWAY FROM THIS ONE!
