## dB Masters' Curium CMS

Hits: 14,513

**Description:** This CMS requires very basic HTML/XHTML knowledge to help you create and manage sites of any size. Includes many optional modules such as news, newsletters, link directory, search engine, contact form, sitemap, photo gallery, event calendar, message forum, RSS feeds and of course any number of standard site pages. Features an automated installer for database tables and simple templating to suit your needs.

This is a great script that's simple to install and operate. It gives a good clean layout. I switched a 40-page HTML site to this system in a couple of hours.

**Nice job!**, Jul 12th, 2003

This is a very clean script package. The coding is very clean and the system is well documented. I was able to expand this to accomodate a 9 tier site with very little trouble and I am quite new to php coding.

Great job and thanks!!!
