Cronos' Vista View Pro

Hits: 2,817

Description: Cronos' VistaView Pro has been created for individuals and small to large sized businesses who require the ability to book appointments, handle internal mail, contacts, document storage, automatic letter writing and the ability for all of this information to be shared throughout the business or Internet if required. This package will provide the functionality and features of products like Microsoft Exchange(R) without the license, maintenance and administrative costs.
