## PHP High Yield Investment Program (HYIP) with Mass Payment

Hits: 4,834

**Description:** Professional High Yield Investment Program (HYIP) where you and your investors can make smart money via e-gold or Intgold enabled system. Built on PHP/MySQL, all available x.xRM versions allow you to Pay By One Click (Mass Payment) using cURL secure engine. 2.6RM or higher includes Turing robot to protect your site from frauds as well as Multilanguage feature and additional investing plans, the only disadvantage is that you have to translate English texts into your language yourself because we have not ready-built translation so far. Admin login: demo, password: 123456.
