The best script I have never seen before. It's highly recommended for those who like to provide ecard service for your website. The java effects are awnsome! Thanks Jimbo for writing this great script.

**eCardMax Gold 2006 - EXCELLENT Program and Company**, Mar 2nd, 200

I purchased eCardMax Gold 2006 in June. The company is EXTREMELY receptive, attentive and has added many of my suggestions.

eCardMax IS excellent for both personal and business use. It is high-tech / feature-rich. What I did manually before is NOW done automatically.

eCardMax Staff cares/IS there for you. They are continually upgrading, updating, making the program better.

03/02/07 - Tech support has fallen off since I wrote the above. Roz Fruchtman

**Great script but pricey.**, Feb 23rd, 2008

I've been satisfied with the script, but every couple of years they 'upgrade' the software and force existing customers to pay an 'upgrade fee' for continued support and update downloads. I feel once you buy the software (for the price they're asking) you should be entitled to upgrades and continued support.
