## IP Detect

Hits: 2,952

**Description:** IP Detect monitors all incoming traffic. If a redirection URL is set up for Germany\*, it will redirect all German\* visitors to a different URL before your website loads (\* Germany is used as an example, you can setup redirection URLs for any country). Your website will load as usual if there's no redirection set up for the visitor's country. IP Detect uses an IP 2 Country database with more than 50,000 entries to decide where a visitor is coming from.

### Resource Specifications

<b>Version:</b>	1.0.0
<b>Platform(s):</b>	UNIX, Linux, Windows
<b>Price:</b>	\$34.95
<b>Date Added:</b>	Jul 18th, 2003
<b>Last Updated:</b>	Jul 18th, 2003

**Average Visitor Rating:**  **2.50** (out of 5)

Number of Ratings: 4 Votes

**Average Member Rating:**  **0.00** (out of 5)
