## Vacation properties rental script with ONLINE BOOKING ENGINE

Hits: 41,767

**Description:** Since 2003 we develop, sell and support our ONLINE BOOKING ENGINE for rental properties with real estate option. Joomla CMS is now integrated with our script. DESKTOP software for property management by owners/agents. Online and offline payments. Comission based/subscription based advertising for owners. Two booking calendars, three online booking types. Google Maps integration and NEW Google Maps property listing. Advanced administration features: additional services, description fields, taxes, custom links and pages, multiple language support, multiple currencies, configurable search. Property Management features: Advanced Reservation Management, HTML pages, SEO optimization, traffic report, Ratecard, price grid and many more ... Newsletter module, cronjob for recurring tasks, IP ban, activity log. You can build your own design and 100% customize the text used in the script. 14 predefined design templates and 10 predefined display styles. Easy upgrades. Add property wizard.
