CGILance.com - FreeLance CGI Programmers

Hits: 2,386

Description: CGILance helps webmasters find CGI Programmers to develop, install or modify CGI, Perl, C/C++ & PHP scripts they need for their site. It allows them to find the professionals they need at the lowest possible prices. When you post a project on CGILance, Programmers essentially compete for your business by bidding on your project much like an auction. This real time approach really works. There are no up front fees at CGILance. You can deposit money in several different ways (credit card, PayPal, etc.) and the programmers can withdraw money in many ways too, which means you don't have to worry about payment methods.

Now with more than 1000 Programers!

Resource Specifications

Platform(s):	linux, windows, freebsd, osx, sun
