## MMS Gallery and MMS Transfer Service Hits: 10,152

**Description:** Mobile Multimedia Messages (MMS) Gallery is complete gallery and photo album for all your mobile multimedia messages including images, sounds, text and video clips. Converts images automaticly to thumbnails.

MMS messages can be sent directly from your mobile phone to your website by using this MMS Gallery together with MMS transfer service from mms2web.com. MMS messages can also be hosted at mms2web.com and the MMS Gallery can be embedded to your website by simply adding a piece of PHP code.

Hosted gallery is provided Free of Charge and can be fully tailored to match your website's colors and fonts or you may choose from several ready configured Themes.
