Echelon Link Checker

Hits: 1,864

Description: With this simple script you simply edit a few variables at the top of the script, set a url to the page you want, and itll go to that page, get all the links, and check each link to see if its "dead" or not. Allows you to set what word or words define a dead page, such as 404 or 500.

Resource Specifications

Version:	1.0
