VeryInteresting Loan Payment Calculator Hits: 3,116

Description: VeryInteresting is a simple loan payment calculator. If a user enters a loan amount, an interest rate, the length of a loan, and the payment frequency, the calculator will show the monthly payment and the total interest that will be paid if the loan is paid to term. For monthly payments, it will also show an amortization table. Supports British Pound Sterling and Japanese Yen symbols as well as US Dollars.

A simple and nice addition for realtors and mortgage loan sites, as well as those who finance vehicles, and so forth.

Resource Specifications
